

DS-781MKB

3D Keyboard Controller

DOWSE®

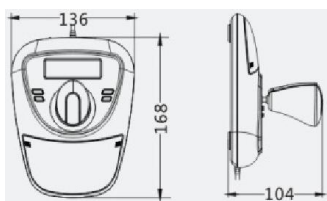

Product pictures

Product features:

- RS485 Bus Line, and a keyboard can connect 31 domes at most in the direct control mode
- Can be compatible with all kinds of protocols
- Can control the Iris, Focus and Zoom
- Can set and call the preset , run the scanning the pattern and the tour
- Can control the matrix and through which can control the dome indirectly
- Equipped with the 3D Joystick and a LCD screen
- Infrared emission, emission the same data & content as RS485

Outline dimension:

Technical Data:

Communication Interface	RS485×1、IR×1
Communication Frequency	2400、4800、9600、19200bps
Communication Mode	RS485
Protocol	Pelco-P/Pelco-D/HCDVR/DH
Operation Temperature	-10℃~+50℃
Humidities	<90%
Operation Voltage	DC 12V ±10%
Operation Consumption	150mA
Measure	L168*W136*H104(mm)
Weight	845g
Material	ABS Plastic Cover

Order type:

DS-781MKB
